

MORE THAN 1,000 DELEGATES HEAR LEGION'S RECORD

Opening of Second Annual Convention of Veterans' Organization Presents Appearance of Political Meet.

CLEVELAND, Sept. 27.—More than one thousand delegates were in their seats in the Hippodrome theater this morning when Franklin D'Olier, national commander, called to order the second annual convention of the American Legion. The floor of the theater resembled one of the big political conventions, state standards and pennants designating seats allotted to the various delegations.

Commander D'Olier presented Rev. Francis J. Kelly of Troy, N. Y., the "fighting captain," who delivered invocation. Following the national chaplain, Mayor William S. Fitzgerald welcomed the visitors and delegates in behalf of the city.

Then, in order, came the report of the national commander, the report of the executive committee on the convention program, naming of convention committees, announcement of the time and place of the meeting of these committees and the reports of the national adjutant and the national treasurer.

The convention prepared to adjourn at noon to witness the parade this afternoon of approximately 20,000 former soldiers and ex-service women, the feature of the three days' convention.

One of the first important matters to be presented before the convention after the preliminaries was a report of the credentials committee. The committee was in session early today to decide two questions, which, after protracted debate, failed to end in a solution at a meeting of the executive committee last night. These are:

Shall each department be allowed only its five delegates at large and one additional delegate for each even 1,000 paid up members, or shall it be allowed an additional delegate for each 1,000 paid up members or major fraction thereof?

Shall the posts in foreign countries be allowed votes in the convention? The credentials committee, composed of one member from each recognized department represented at the convention, including all states, the District of Columbia, Alaska and Hawaii.

The question whether an additional delegate would be seated by states having a majority of 1,000 paid up members affected 23 votes, and the question of the seating of delegates or their proxies from foreign countries or outlying territorial possessions of the United States involved 88 votes.

Pending decision of these two questions the voting strength at the convention ranged between 1,047 and 1,156.

818,680 Members.

The executive committee decided in the last night that representation in the convention should be on the basis of paid up national dues August 28, which on that date totaled \$18,550. There was strong objection to this ruling by many states, particularly New Jersey, where it was said the membership had been increased by eleventh hour efforts from 22,000 to 36,000. National dues for more than 1,000,000 men have been received, it was said.

How the case of the ex-service men, and particularly the disabled, has been championed in Washington

Fog Defeats U. S. Atlantic Fleet

NEW YORK, Sept. 27.—More than 25 steamships, including all the battleships of the Atlantic fleet, were anchored in the outer harbor early today, unable to grope their way through the dense fog that has enveloped this vicinity since Friday night.

A number of trans-Atlantic liners, including LaSalle, Philadelphia, the U. S. transport Northern Pacific, the U. S. S. Prometheus, and others, were halted on their inbound voyage. Some of these have been anchored since Saturday morning.

The Atlantic squadron has been attempting to enter the harbor since yesterday.

during the past 10 months was shown by the report of John Thomas Taylor, chairman of the national legislative committee.

In all 74 different bills were presented to the Sixty-sixth congress that vitally affected the veterans. The legislative committee's duty was to see that action was taken on them.

The first convention of the legion in Minneapolis last November adopted a pretentious platform, covering everything from war risk insurance to army nurses. The committee has had bills introduced covering every resolution adopted at the first convention.

High lights in the legislative accomplishments of the legion are:

The Sweet bill, increasing the allowance to disabled from \$30 to \$80 a month; the obtaining of \$40,000 for hospitalization of the disabled; increase in pay of vocational training students from \$80 to \$100 a month; investigation of the methods of the federal board of vocational training leading to improvements; laws to expel and exclude aliens who are anarchists.

Other legislation pending covers such subjects as hospitalization, aviation, land settlement, officers' retirement, education, aliens, immigration, Americanism, civil service, slacks and war risk insurance.

Aid for Disabled.

An instance of what the legislative committee accomplished is furnished by the case of the provision made for the war's disabled. The Sixty-fifth congress appropriated approximately \$150,000,000 for the disabled. Since the establishment of the legislative committee in Washington, the Sixty-sixth congress appropriated \$25,545,000.

Reduction of war risk insurance premiums, an issue to be brought before the convention, will be opposed by members of the war risk bureau, it was stated by Major Grover, the section of the bureau. The opposition of the bureau will be based on what members feel to be the unsound business policy involved.

Veterans of all the allied nations, it is said, will start a movement at the convention to form their own "league of nations." The proposed amalgamation will include the soldiers' organizations of the United States, the Great War Veterans' association of Great Britain, the Union of Fighters of France and several other French associations.

The convention will close Wednesday with the election of officers and adoption of a ritual for initiation into the legion.

Almost 18,000 disabled ex-service men and women are being cared for in hospitals in the United States.

UTAH WILL VOTE FOR LEAGUE, SAYS DAVID LAWRENCE

Wilson to Get Referendum He Desires in That State and It Will Be Favorable, Expert Asserts.

BY DAVID LAWRENCE.

(Special Correspondent of The News Scimitar.)

OGDEN, Utah, Sept. 27.—Woodrow Wilson will get in the state of Utah the referendum of the league of nations which he so earnestly desires and what is more the verdict will be favorable to the league. For no matter what reasons other states may have for casting their electoral votes for Harding or Cox, the fundamental reason why Utah is going Democratic this year is her fervent interest in the league of nations as a step in the direction of preventing war.

Utah contains a community that takes principles rather seriously. When former President Taft came to the tabernacle here and the people crowded in to hear him appeal for the league of nations, Utah was impressed; when President Wilson filled the tabernacle and preached the doctrines of the league, Utah was affirmed in its conviction. When Gov. Cox came here, a religious fervor prevailed in the big tabernacle as he, too, spoke for the league of nations. Besides, a year ago the conference of the Mormon church expressed itself almost unanimously for the league.

Having taken such a position, the Utah people are more or less at a loss to understand those who for political reasons have abandoned the league of nations for the time being. They will vote for Cox because Senator Harding has apparently taken the position of Senator Johnson of California of opposing the league.

There is an active campaign here against the league, but it has not made much of an impression. The president of the Mormon church presided at Gov. Cox's meeting, but is

reported to be in favor of the re-election of Senator Smoot, Republican. The senator has been for the league with reservations and has not changed his position to that of Senator Johnson. If he is re-elected, as seems likely at this writing, it will be because the people of Utah recognize that he has done things for them and is a leader in his party and therefore in a position to do more things for them.

Milton Wellins, also a Mormon, is the Democratic nominee for senator. He has been in congress and behind him is the cry for new blood in the senate to represent Utah. He will give Smoot a good race, but Smoot will run stronger than Harding in this state.

Normally Utah is Republican. It has, in recent years, been Democratic largely out of admiration for President Wilson, who has not been fought with the same bitterness here by the press as in other states.

Governor Is Democrat.

At present Utah has a Democratic governor, Simon E. Benson, who enjoys the distinction of having made one of the best governors the state ever had, but who, at the same time, has absolutely declined to accept the nomination for the re-election, which was tendered to him by party leaders. He could unquestionably be elected, as he is popular with Republicans and Democrats, and has given the state a business administration. He is a warm supporter of Gov. Cox in the league of nations, and the Democratic organization in this state seems to have more ground than the Democrats in other states as appears this year.

Gov. Cox will not get as large a plurality here as did President Wilson in 1916. It will be greatly reduced, but while the Republicans are claiming the state by a narrow margin, the Mormons will decide the issue. The church itself has taken no active part in politics, but the rank and file of its membership rever the judgment of their elders and the action of the Mormon conference of a year ago.

Utah will go Democratic as a matter of consistency and principle. Gov. Cox made a fine impression here, and unless the word should be passed along in the Mormon church to vote for Harding for reasons other than the league, a contingency that is not expected by those who have made a careful study of Utah politics, the four electoral votes of Utah may be chalked up for the Democratic nominee.

FORMER JAP PREMIER ATTACKS SECRECY

TOKIO, Sept. 27. (By the Associated Press.)—An attack against secrecy in connection with Japan's diplomacy in the California problem is made in a statement by Marquis Okuma, former premier. He demands that the government respond to national opinion, which should be awakened to the gravity of the issue.

The presence of 100,000 industrious Japanese is no menace to America, says the marquis. The real menace, he declares, is from the anarchists and Bolsheviks, who are flocking to the United States from Europe.

After pointing out that many Japanese subscribed to the American Liberty loans, and made donations to the Red Cross, and that some volunteered for service with the army, Marquis Okuma asserts:

"We must appeal to the fair judgment of enlightened Americans and if necessary to the nations of the world. Moreover, there is ample ground for the Japanese to insist on their legal rights, so there is no need to jump at hasty conclusions and try high-handed measures."

Excavations show that beavers have been building their dams on the same site for thousands of years.

Speeches Will Be Heard In 4 Cities

NEW YORK, Sept. 27.—Speeches by widely known engineers will be transmitted by radio telephone to gatherings of engineers in various cities of the United States during the celebration, Nov. 5, of the fortieth anniversary of the American Society of Mechanical Engineers. It was announced at the society's headquarters here. The observance will be held in 42 cities.

The speeches it is planned to flash by telephone will be heard in Boston, San Francisco, St. Paul and New Orleans. The plans contemplate the use of the stations at Fort Leavenworth and Annapolis, the only two powerful enough to accomplish the feat, it was said.

The knowledge that you are well and correctly attired tends to establish poise and self-confidence in public. Come in and see our collection of fine imported and domestic suitings in piece goods for tailoring suits to your measure—line for line—at moderate prices.
